

Changing a person’s level of care in interRAI

Information for assessors and managers

When do I need to change a person’s level of care?

When a client’s Clinical Assessment Protocols (CAPs) are triggered that identify areas of:

- A higher than expected rate of decline
- An increased potential to improve
- Symptoms that could be alleviated if a problem was addressed.

Step 1: Select the ADT tab. Once this has opened, select ‘transfer’.

Resident Search	Resident Overview	ADT	Forms	Care Plan	MDS	Progress Notes	Physician Orders	QIs	CAPs	Outcomes
Common Tasks		Edit Error Out last event Show errored out events								
ADT										
ADT Events										
Admit										
Transfer										
Resident Discharge										
Assessments/Forms										
Date	Event Type	Location	Program	Additional ADT Info						
16/05/2016 05:57 PM	Admit	South Wing - 202 - B	hospital level care	From: Inpatient Rehab...						
16/05/2016 05:56 PM	Discharge	NZ HC Testing Facility								
01/05/2016 12:00 AM	Admit	NZ HC Testing Facility		From:						

Step 2: In the Program ID section, select the level of care required using the drop down box. **NB:** This can be completed without a change in bed if the resident will continue to be supported

From		Program	
Location	NZ Long Term Care Testing Facility		hospital level care
Unit	South Wing	Room	202
To			
Transfer Type	Internal		
Date	11/07/2016 08:36 PM		
Program ID	hospital level care		
	rest home level care		
	hospital level care		
		Room/Bed ID	South Wing - 202 - B

Step 3: This will then populate the next MDS assessment at A6 – Facility/Agency Identifier.
NB: If the assessment is draft but section A is complete, then re-open section A to allow the updated level of care to populate A6 in that draft assessment

6	FACILITY / AGENCY IDENTIFIER	<p>a. Facility Name NZ Long Term Care Testing Facility</p> <p>b. Facility Number F0Z876-G</p> <p>c. Level of Care hospital level care</p>
---	------------------------------	---

Step 4: Select 'Save & Return' to save your selection.

ADT	Forms	Care Plan	MDS	Progress Notes	Physician Orders
<div style="display: flex; justify-content: space-between;"> Return Save & Return Cancel </div>					
<p>From Location NZ Long Term Care Testing Facility</p> <p>To Transfer Type Internal</p> <p>Date 11/07/2016 09:47 PM</p> <p>Program ID rest home level care</p>
