
Notice 2016 upgrade of national interRAI system # 5

Date: 19/09/2016

From: Andrew Downes (National interRAI Service Manager)

To: Staff from DHBs and their associated contracted community service providers that use and support interRAI
Staff from Residential Care Facilities that use and support interRAI
interRAI System Clinicians and Lead Practitioners
National interRAI Training Service
DHB/NGO/Residential Care ICT staff that support interRAI

Background and purpose of this notice:

The national interRAI software service completes an upgrade annually to accommodate updates to interRAI assessment tools and enhancements requested by projects/user groups. The purpose of this notice is to:

1. Provide DHB/NGO/PHO ICT staff that support **the mobile ‘check in check out’ function for Home Care based assessments** enough notice to enable local technical upgrade plans to be developed in conjunction with the local clinical services. **(This section does not apply to residential care staff).**
 - a. Our test systems will be available from midday Wednesday 21st September at the upgraded version (v128.0034).
 - b. For any organisation participating in the mock go live, you will be able to synchronise your devices at the upgraded version from that time onwards
 - c. The normal weekly conference calls for technical support staff are every Tuesday between 2.00pm and 2.30pm. The number will be: 083032 pin 166246 (follow prompts)

Planned Upgrade dates

For all services/providers in the lower and middle part of the North Island (the Central/Midland region DHB areas), the planned date is **Friday evening Friday 4th November**. (upgrade will occur after 5.00pm).

Taranaki DHB host	Services/providers associated with the following DHBs
Midland 	Bay of Plenty Lakes Tairāwhiti Taranaki Waikato
Central 	Capital and Coast Hawke's Bay Hutt Valley Mid Central Wairarapa Whanganui

For all services/providers in the South Island and northern part of the North Island ie Auckland area and further north, (the Northern/Southern region DHB areas), the planned date is **Friday evening 28th October** (upgrade will occur after 5.00pm).

Canterbury DHB host	Services/providers associated with the following DHBs
Northern 	Auckland Counties Manukau Waitemata Northland
Southern 	Canterbury South Canterbury West Coast Southern Nelson Marlborough

Important notice for all services and their ICT support staff that use the mobile ‘check in check out’ module (this section does not apply to Residential Care Facilities).

1. The same process will be followed for every previous upgrade. The host sites (Canterbury DHB and Taranaki DHB) will release an upgrade pack and make their respective TEST systems available to customer organisations for a two – three week test window. This pack will also include an example test script for testing mobile devices.
2. This two/three week period will enable ICT staff and lead practitioners/systems clinicians at customer sites to
 - a. Test the upgrade for laptops that use the ‘check in check out’ function and also any devices that are using the data warehouse – ie complete a ‘mock go live’ with one device.
 - b. Prepare any local packaging/deployment.
3. You are advised to install or synchronise a test device at 128.0034 after midday on 21st September
4. **During the test window please do not try and upgrade a device to the new version without first having synchronised it at v127.0014. If in doubt please contact Andrew Downes 027 501 0397.**
